

community choices unit three

U3L4A2 | Sustainability and inflation anticipation guide

overview

In this activity you will collaborate with your group members to identify the negative impacts of inflation. You will think deeply about how citizens, economy/government, and the environment are affected when prices rise rapidly.

learning goal

- To identify and understand the far reaching impacts of inflation on sustainability.

success criteria

- Complete organizer and informally share findings with the class.

Inquiry question

- How are citizens, economy/government, and the environment affected when prices rise rapidly?

Brainstorm with your group members to identify the negative outcomes of rapid inflation. Record below in point form.

Societal sustainability How are citizens lives affected?	Economic sustainability How is the economy/ government affected?	Environmental sustainability How is the natural environment affected?
